

# UrbanShade™ System

## Competitively priced high design

The new-generation UrbanShade™ system is a competitively priced, high-design window covering. It's easily reconfigured in the field for special site conditions. The system is suitable for smaller spaces, residences, light-commercial projects, home theaters, and A/V and conference areas. Featuring high-quality and durable components, UrbanShade™ is ideal when aesthetics, flexibility, and competitive pricing are desirable. UrbanShades™ are available as standard components assembled on-site or as prefabricated cassettes.

### Economical

- Cost effective—competitively priced

### Configurations

- Manual—smooth operation with a continuous bead chain
- Motorized—battery powered with RTS wireless IR remote control
- Motorized—low voltage with wireless RTS + dry-contact control

### Reliability

- Sturdy—heavy-duty steel support brackets with high-density plastic components
- Durable—rigid mounting brackets with a steel frame
- Powerful—allows for shades up to 10 ft. (305cm) high
- Longevity—ten-year non-depreciating warranty

### Design attributes

- Versatile—integrated and interchangeable components
- Flexible—universal mounting bracket, enabling on-site reconfiguration
- Compact—small-edge clearance with 3/8 in. (9.5mm) space
- Sleek—refined, unobtrusive profile

### Easy installation

- Innovative—universal mounting brackets (wall, ceiling, or jamb)
- Adaptable—Left and right drives are interchangeable.
- Straightforward—Optional cassette allows for fast and easy installations
- Cassette—prefabricated, fully assembled
- Accessible—SnapLoc® spline for easy shadecloth removal and maintenance

### Controls

- Operation—wireless RTS or hard wired low-voltage.
- Interoperative—allows for wireless RF/RTS or IR control
- Dry-contact—daisy-chained manual switch control

### Options

- Decorative—SnapLoc® fascia as square or radius. Optional fabric-wrapped fascia
- Room-darkening—side and sill channels
- Lift assist mechanism available as required for heavier shades
